

Spring Italian Training for AI in Drug Design

SPRINT-AIDD

Spring Italian Training for AI in Drug Design (SPRINT-AIDD) is an advanced school dedicated to the rational design of bioactive molecules and drug discovery through artificial intelligence.

The goal of SPRINT-AIDD is to train researchers, students, and professionals in drug discovery, providing both theoretical knowledge and practical skills on cutting-edge AI and machine learning tools applied to medicinal chemistry, toxicology and pharmacology.

Opening lectures

Gabriele Cruciani
University of Perugia

Orazio Nicolotti
University of Bari

Speakers

- Cosimo Damiano Altomare
- Nicola Amoroso
- Andrea Astolfi
- Massimo Baroni
- Paolo Benedetti
- Andrea Carotti
- Fulvio Ciriaco
- Simon Cross
- Nicoletta Del Buono
- Flavia Esposito
- Nicola Gambacorta
- Fabrizio Mastroianni
- Tommaso Palomba
- Lydia Siragusa
- Daniela Trisciuzzi

Organizing committee

- Daniela Trisciuzzi, Nicola Gambacorta, Maria Vittoria Togo (University of Bari, Italy)
- Lydia Siragusa, Paolo Benedetti (Molecular Discovery Ltd.)
